

## CULTUS LAKE FISH SPECIES

Nineteen species other than sockeye salmon are known to occur in Cultus Lake. (BC Fisheries Inventory - FISS: <http://www.env.gov.bc.ca/fish/fiss/> ) All species are native to the lake.

These include:

1. sockeye (*Oncorhynchus nerka*)
2. chinook (*O. tshawytscha*)
3. coho (*O. kisutch*)
4. chum (*O. keta*),
5. pink (*O. gorbuscha*)
6. coastal cutthroat trout (*O. clarki clarki*)
7. steelhead and rainbow trout (*O. mykiss*)
8. Dolly Varden (*Salvelinus malma*)
9. Cultus pygmy sculpin (*Cottus aleuticus*)
10. prickly sculpin (*C. asper*)
11. threespine stickleback (*Gasterosteus aculeatus*)
12. largescale sucker (*Catostomus macrocheilus*)
13. longnose dace (*Rhinichthys cataractae*)
14. mountain whitefish (*Prosopium williamsoni*)
15. northern pikeminnow (*Ptychocheilus oregonensis*)
16. peamouth chub (*Mylocheilus caurinus*)
17. redbside shiner (*Richardsonius balteatus*)
18. western brook lamprey (*Lampetra richardsoni*)
19. river lamprey (*Lamptera ayresii*)
